INVITE TO SERVER*	PURCHASE*	SUBSCRIBE*

Invite EsportBot to your Discord server
- Purchase PREMIUM then follow invite link
- OR click INVITE button to install FREE

- Clicking invite link will open your Discord
- Select your server and confirm invite
- Authorize EsportBot

- Go to server settings > roles

- **IMPORTANT:**

  Place EsportBot above all roles the bot shall manage

Step 2

Open dashboard

- In any of your Discord channels, type */dashboard* and press «enter» (twice).

- EsportBot dashboard will now open in your default browser window

- Select your server

- Welcome to EsportBot dashboard!

Step 3

Activate Modules

- If you have PREMIUM you may «Enable All», to get full access to all modules.

- OR only select one by one, depending on your needs.

- IF you do not have PREMIUM and wish to get it - go to «Licenses» to get one.
- From «Licenses» you may also manage your licence(-s) and select which of your Discord servers it should be used with.
